Postmodern Humanism in Contemporary Literature and Culture-T. Davis 2016-01-23

Davis and Womack investigate the emerging gaps between literary scholarship and the reading experience. The idea of reconciling the void - the locus of our sociocultural disillusionment and despair in an uncertain world - concerns explicit artistic attempts to represent the ways in which human beings seek out meaning, hope and community.

The Oxford Handbook of Modern and Contemporary American Poetry-Cary Nelson 2014-12-01

The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting-edge introduction to the kaleidoscopic world of American poetry over the last century. Offering a comprehensive approach to the debates that have defined the study of American verse, the twenty-five original essays contained herein take up a wide array of topics: the influence of jazz on the Beats and beyond; European and surrealist influences on style; poetics of the disenfranchised; religion and the national epic; antiwar and dissent poetry; the AIDS epidemic; digital innovations; transnationalism; hip hop; and more. Alongside these topics, major interpretive perspectives such as Marxist, psychoanalytic, disability, queer, and ecocritical are incorporated. Throughout, the names that have shaped American poetry in the period--Ezra Pound, Wallace Stevens, Marianne Moore, Mina Loy, Sterling Brown, Hart Crane, William Carlos Williams, Posey, Langston Hughes, Allen Ginsberg, John Ashbery, Rae Armantrout, Larry Eigner, and others--serve as touchstones along the tour of the poetic landscape.

Insane Devotion-Mihaela Moscaliuc 2016-05-16

Gerald Stern has been a significant presence and an impassioned and idiosyncratic voice in twentieth and twenty-first-century American poetry. *Insane Devotion* is a retrospective of his career and features fourteen writers, critics, and poets examining the themes, stylistic traits, and craft of a poet who has shaped and inspired American verse for generations. The essays and interviews in *Insane Devotion* paint a broad picture of a man made whole by the influence of the written word. They touch on the contentious and nuanced stance of Judaism in the breadth of Stern's work and explore Stern's

capacious memory and his use of personal history to illuminate our common humanity. What is revealed is a poet of complexity and heart, often tender, often outraged. As Philip Levine writes in his lyrical foreword to the volume, Stern is both sweet and spiky, "a born teacher who can teach me to see the universe in an acorn and hear the music of the lost in an empty Pepsi can."

The Hands-On Life-Amy E. Weldon 2018-01-30

Stressed out? Swimming in a sea of screens? Worried about our beloved, endangered earth yet uncertain how to work for change? If this sounds familiar, you're not alone. In this intelligent guide to mindfulness in the digital age, writer and teacher Amy Weldon describes how practicing life as an artist can help you wake yourself up and take back control of your attention, your money, your time, and the health of our society and our planet. Traveling from farm to protest march to classroom, and engaging a range of thinkers from Hannah Arendt to George Orwell, John Keats, and Henry David Thoreau, *The Hands-On Life* is a book for students and for everyone who dreams of building a better world.

Trash Animals-Kelsi Nagy 2013-04-01

Why are some species admired or beloved while others are despised? An eagle or hawk circling overhead inspires awe while urban pigeons shuffling underfoot are kicked away in revulsion. Fly fishermen consider carp an unwelcome trash fish, even though the trout they hope to catch are often equally non-native. Wolves and coyotes are feared and hunted in numbers wildly disproportionate to the dangers they pose to humans and livestock. In *Trash Animals*, a diverse group of environmental writers explores the natural history of wildlife species deemed filthy, unwanted, invasive, or worthless, highlighting the vexed relationship humans have with such creatures. Each essay focuses on a so-called trash species—gulls, coyotes, carp, cockroaches, magpies, prairie dogs, and lubber grasshoppers, among others—examining the biology and behavior of each in contrast to the assumptions widely held about them. Identifying such animals as trash tells us nothing about problematic wildlife but rather reveals more about human expectations of, and frustrations with, the natural world. By establishing the unique place that maligned species occupy in the contemporary landscape and in our imagination, the contributors challenge us to look closely at these animals, to reimagine our ethics of engagement with such wildlife, and to question the violence with which we treat them. Perhaps our attitudes reveal more about humans than they do about the animals. Contributors: Bruce Barcott; Charles Bergman, Pacific Lutheran U; James E. Bishop, Young Harris College; Andrew D. The American Poetry Wax Museum-Jed Rasula 1996

Drawing upon literary criticism, cultural studies, and social history, this book examines the canonizing assumptions (and compulsions) that have fabricated an image of American poetry since World War II, foremost of which is the enshrinement of the self-expressive subject. The tone of the book oscillates between documentary and polemic in an attempt to preserve the tensions that underlie the field of American poetry and which are typically subdued by anthologists and glossed over by commentators. The first chapter offers a theoretical scaffolding intended to contextualize following chapters and to invite other poets and critics to consider what it means to assemble and police a national canon of poetry. Subsequent chapters examine scholarship on contemporary American poetry; the cultural politics of publication and reviewing (which excludes, women, people of color, and gays and lesbians from many poetry anthologies); and poetry in the academy and the role of the poetry workshop. Ten appendixes list American poetry anthologies, most anthologized poets, number of anthology appearances, poets by birthdate, first anthology appearances, anthologies in translation, prizes and awards, results of a search of the MLA bibliography on CD-ROM, critical discussions of American poets, and interviews/collections of poets' essays. Opposing Poetries-Hank Lazer 1996-08-12

Opposing Poetries presents a selection of Hank Lazer's writing on a range of issues in contemporary American poetry. Through a series of recurring cultural, material, and institutional perspectives, Lazer investigates the assumptions and habits that govern conflicting conceptions of contemporary American poetry, while refining, reconsidering, and questioning his own and modern theorists' assertions and claims relating to experimental poetry. Volume One examines the shift in the governing assumptions of contemporary poetic practice. Lazer inspects the key critical works addressing poetries in the 1980s and 1990s, as well as the political and aesthetic impact of modern critics, poetry reading programs, and of the publishing industry and libraries on contemporary poetic practice.

Opposing Poetries: Readings-Hank Lazer 1996

Explains to structural engineers some of the basic equations for analyzing and designing buildings that were devised at the end of the 19th century but were so unmanageably complex to solve that they were displaced by approximation techniques until the recent advent of electronic computer. Heyman (engineering, U. of Cambridge) warns that some of the equations turn out not to fit reality as close as future occupants of buildings might prefer, and explains how to use them and in what context. Contested Records-Michael Leong 2020-05-13

Contested Records analyzes how some of the most well-known twenty-first century North American poets work with fraught documents. Whether it's the legal paperwork detailing the murder of 132 African captives, state transcriptions of the last words of death row inmates, or testimony from miners and rescue workers about a fatal mine disaster, author Michael Leong reveals that much of the power of contemporary poetry rests in its potential to select, adapt, evaluate, and extend public documentation.

The Early Poetry of Charles Wright-Robert D. Denham 2009-01-13

This companion covers Charles Wright's first two trilogies, *Country Music* (1982) and *The World of the Ten Thousand Things* (1990), providing biographical details, information on Wright's sources and influences, and historical notes. It pays special attention to the way that Wright's poems work together and the links that are formed between them. While each poem is given its own commentary, the author argues that they work together in a concentrated whole to document a man's spiritual journey.

Reading Victorian Deafness-Jennifer Esmail 2013-04-15

Reading Victorian Deafness is the first book to address the crucial role that deaf people, and their unique language of signs, played in Victorian culture. Drawing on a range of works, from fiction by Charles Dickens and Wilkie Collins, to poetry by deaf poets and life writing by deaf memoirists Harriet Martineau and John Kitto, to scientific treatises by Alexander Graham Bell and Francis Galton, *Reading Victorian Deafness* argues that deaf people's language use was a public, influential, and contentious issue in Victorian Britain. The Victorians understood signed languages in multiple, and often contradictory, ways: they were objects of fascination and revulsion, were of scientific import and literary interest, and were considered both a unique mode of human communication and a vestige of a bestial heritage. Over the course of the nineteenth century, deaf people were increasingly stripped of their linguistic and cultural rights by a widespread pedagogical and cultural movement known as "oralism," comprising mainly hearing educators, physicians, and parents. Engaging with a group of human beings who used signs instead of speech challenged the Victorian understanding of humans as "the speaking animal" and the widespread understanding of "language" as a product of the voice. It is here that *Reading Victorian Deafness* offers substantial contributions to the fields of Victorian studies and disability studies. This book expands current scholarly conversations around orality, textuality, and sound while demonstrating how understandings of disability contributed to Victorian constructions of normalcy. *Reading Victorian Deafness* argues that deaf people were used as material test subjects for the Victorian process of understanding human language and, by extension, the definition of the human.

White Light-Ronald J. Friis 2021-11-12

White Light: The Poetry of Alberto Blanco examines the interplay of complementary images and concepts in the award-winning Mexican writer's cycle of poems from 1979 to 2018. Blanco's poetic trilogy *A la luz de siempre* is characterized by its broad range of form and subject and by the poet's own eclectic background as a chemist, maker of collages, and musician. Blanco speaks the language of the visual arts, science, mathematics, music, and philosophy, and creates work with deep interdisciplinary roots. This book explores how polarities such as space and place, reading and writing, sound and silence, visual and verbal representation, and faith and doubt are woven through *A la luz de siempre*.

These complements reveal how Blanco's poetry, like the phenomenon of white light, embraces paradox and transforms into something more than the sum of its disparate and polychromatic parts.

Sappho and Catullus in Twentieth-Century Italian and North American Poetry-Cecilia Piantanida 2021-01-14

Going beyond exclusively national perspectives, this volume considers the reception of the ancient Greek poet Sappho and her first Latin translator, Catullus, as a literary pair who transmit poetic culture across the world from the early 20th century to the present. Sappho's and Catullus' reception has shaped a transnational network of poets and intellectuals, helping to define ideas of origins, gender, sexuality and national identities. This book shows that across time and cultures translations and rewritings of Sappho and Catullus articulate modernist poetics of myth and fragmentation, forms of confessionalism and post-modern pastiche. The inquiry focuses on Italian and North American poetry as two central yet understudied hubs of Sappho's and Catullus' modern reception, also linked by a rich mutual intellectual exchange: key case-studies include Giovanni Pascoli, Ezra Pound, H.D., Salvatore Quasimodo, Robert Lowell, Rosita Copioli and Anne Carson, and cover a wide range of unpublished archival material. Texts are analysed and compared through reception and translation theories and inserted within the current debate on the Classics as World Literature, demonstrating how sustained transnational poetic discourse employs the ancient pair to expand notions of literary origins and redefine poetry's relationship to human existence.

For René Girard-Sandor Goodhart 2009-06-17

In his explorations of the relations between the sacred and violence, René Girard has hit upon the origin of culture—the way culture began, the way it continues to organize itself. The way communities of human beings structure themselves in a manner that is different from that of other species on the planet. Like Albert Einstein, Sigmund Freud, Émile Durkheim, Martin Buber, or others who have changed the way we think in the humanities or in the human sciences, Girard has put forth a set of ideas that have altered our perceptions of the world in which we function. We will never be able to think the same way again about mimetic desire, about the scapegoat mechanism, and about the role of Jewish and Christian scripture in explaining sacrifice, violence, and the crises from which our culture has been born. The contributions fall into roughly four areas of interpretive work: religion and religious study; literary study; the philosophy of social science; and psychological studies. The essays presented here are offered as "essays" in the older French sense of attempts (essayier) or trials of ideas, as indeed Girard has tried out ideas with us. With a conscious echo of Montaigne, then, this homage volume is titled *Essays in Friendship and in Truth*.

Ethics and Politics in Modern American Poetry-John Wrighton 2012-06-25

From the Objectivists to e-poetry, this thoughtful and innovative book explores the dynamic relationship between the ethical imperative and poetic practice, revitalizing the study of the most prominent post-war American poets in a fresh, provocative way. Contributing to the "turn to ethics" in literary studies, the book begins with Emmanuel Levinas' philosophy, proposing that his reorientation of ontology and ethics demands a social responsibility. In poetic practice this responsibility for the other, it is argued, is both responsive to the traumatized semiotics of our shared language and directed towards an emancipatory social activism. Individual chapters deal with Charles Olson's *The Maximus Poems* (including reproductions of previously unpublished archive material), Gary Snyder's environmental poetry, Allen Ginsberg's Beat poetics, Jerome Rothenberg's ethnopoetics, and Bruce Andrew's Language poetry. Following the book's chronological and contextual approach, their work is situated within a constellation of poetic schools and movements, and in relation to the shifting socio-political conditions of post-war America. In its redefinition and extension of the key notion of "poethics" and, as guide to the development of experimental work in modern American poetry, this book will interest and appeal to a wide audience.

Ghostlier Demarcations-Michael Davidson 1997-01-01

Why do modern poets quote from dictionaries in their poems? How has the tape recorder changed the poet's voice? What has shopping to do with Gertrude Stein's aesthetics? These and other questions form

the core of *Ghostlier Demarcations*, a study of modern poetry as a material medium. One of today's most respected critics of twentieth-century poetry and poetics, Michael Davidson argues that literary materiality has been dominated by an ideology of modernism, based on the ideal of the autonomous work of art, which has hindered our ability to read poetry as a socially critical medium. By focusing on writing as a palimpsest involving numerous layers of materiality--from the holograph manuscript to the printed book--Davidson exposes modern poetry's engagement with larger historical forces. The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts.
